

Template for A2 Card Box

This box holds six A2-sized cards (4.25 x 5.5") and six envelopes. Assembly instructions may be found here [on my blog](http://stampwithlisat.typepad.com/stamp_with_lisat/2009/07/tutorial-card-box.html). (http://stampwithlisat.typepad.com/stamp_with_lisat/2009/07/tutorial-card-box.html).

Cutting/scoring guide: cut cardstock to dimensions indicated.

- Score on solid lines.
- Cut out shaded gray areas.
- Snip along score lines where indicated with red.

This is the cutting and scoring pattern for the bottom of the box, to be made with a 8 3/8" x 9 3/4" piece of card stock.

Cutting and scoring pattern for the lid of the box. Ideally, the top should be made with acetate/transparency cut to 6 1/4" x 7 5/8". Card stock will also work, and you'll want to layer or embellish the lid in a manner similar to the cards.
